# FIND YOUR SIZE

Before printing, ensure that the layout and scale of the document are set to 100% in your print dialog box. (You can use the CTRL + P shortcut to open the box and check)

To confirm accuracy, you can measure the verification bar with a ruler. Its length should be 3cm, or 30mm.

Place your credit card here to confirm the accuracy of the scale.

## Measure your ring at home

If you already have a ring that fits you well, place it on the circles illustrated below to determine your ring size.

Next, make sure to perfectly align the inside of your ring with the blue circle, leaving no space.

Looking at the ring from above, the red circle should not be visible. If your ring falls between two sizes, we recommend ordering the larger one.
